## Codeigniter get last insert id

① Ads by Google ► Email ID ► SQL Insert ► ID Number ► Insert PHP

Codeigniter get last insert id: \$this->db->insert\_id(); is used to get the last insert id in codeigniter.

It returns the ID Number(primary key) of the last insert record in the table. Example:

## Codeigniter get last insert id

```
$data = array('name' => $name, 'email' => $email);

$this->db->insert_string('users', $data);

$id = $this->db->insert_id(); // Will return the last insert id.
```
